The North American Stallion Sport Test (NASST) is the premiere event for US sporthorse breeding since its inception in 2017. Mirrored after the 3-Day Stallion Sport Test offered in Germany and accepted by all the major sporthorse breed registries, NASST provides the best option for young stallions to earn life time approval. With annual tests held on the east and west coasts, NASST serves to increase accessibility and elevate dressage, jumper, and pony sporthorse breeding programs across North America.
